Workshops and Trainings 2011

BY WILLIAM R. EMERSON, PH.D.

Emerson Seminars (ES) provides experiential and didactic workshops and trainings for professionals and non-professionals. ES courses consist of safe, structured, and healing practices, developed by Dr. Emerson over the past thirty years, which provide for personal and spiritual transformation. Participants have the opportunity to identify, explore, and heal wounds emanating from the prenatal and perinatal periods, and in the process, realize and actualize the Higher Self, spirit, and soul. All workshops are taught by Dr. Emerson unless otherwise indicated. You can now register for many courses online at www.emersonbirthrx.com.

SWITZERLAND MARCH-APRIL

MAR 24 (NOON) -26 (NOON) **PREVENTING AND HEALING MATERNAL AND INFANT BIRTH TRAUMA**
BASIL, SWITZERLAND

Parents giving birth are prone to being birth traumatized, especially in hospital settings. So are doctors, nurses, and midwives. Babies of course are the highest risk group for being traumatized, and most contemporary adults carry unresolved birth (and prenatal) trauma. This workshop is for parents who gave birth or are about to, for professionals who attend birth, and for those who suffered trauma while being born. If you think your own children or grandchildren were traumatized, there is much you can do about it as an adult parent or grandparent. Find out the insidious and direct ways birth is impairing your life now, or the lives of your children or grandchildren, and what to do about it.

MINNEAPOLIS, MINNESOTA MAY

MAY 19 EVENING PUBLIC LECTURE: CHILDBIRTH A SACRED PASSAGE 7:00 PM

PROLOGUE BY MONICA MATOS, SACRED PASSAGE FOUNDER

During the last 7 decades, childbirth has been medicalized, and women's natural ability to give birth has temporarily been obscured. While medicalization helps a few women who need medical help, it is routinely applied to women who need no help, and in the process, disempowers and harms them. This process results in physical, psychological, and spiritual harm to most mothers, babies, and families, with negative impacts that last for decades. This lecture names the negative impacts, but highlights solutions that doctors, nurses, midwives, and parents can do within hospital or home settings to support the inherent aspects of childbirth that empower women spiritually and psychologically, reduce harm, and make childbirth a positive life-changing experience.

Pre-registration admission \$15, at the door \$20, (all tax-deductible proceeds to Ten Moons Rising)

MAY 20 ONE-DAY WORKSHOP: CHILDBIRTH A SACRED PASSAGE, OPEN TO THE PUBLIC

This workshop is for women who have given birth, or for men or women who attend or support birth in any way. It provides ground-breaking techniques from psychiatry and psychology that empower women to birth babies and rebirth themselves, in hospital or home. It also empowers birthing personnel to explore forgotten and unconscious tendencies from their own birth patterns, freeing them to function in accordance with their own sacredness (and subtly but powerfully supports mothers to do the same). This transforms childbirth from a medical to a sacred and life-transforming event for all concerned.

Tuition: \$150 (meals & lodging not included)

MAY 21-23 THREE-DAY WORKSHOP: CORE TRANSFORMATION, OPEN TO THE PUBLIC

This workshop focuses on the profound effects that birth experiences (giving birth or being born) have on life patterns. It provides direct experiences with ways to enhance positive impacts from birth while freeing yourself from restrictive patterns. In the process, gifts from birth are enhanced while negative impacts are cleared, resulting in psychological and spiritual transformations. This workshop includes safe and time-tested processes such as Emerson Spirit Experiencing, Emerson Soul Experiencing, and Emerson Egressions (spirit-based regressions), manifesting spontaneous changes in physical and psychological symptoms, while accessing a deeper and more centered place within (the higher self).

Tuition: \$525 (meals & lodging not included)

All Minneapolis lectures & workshops enroll online or with Monica Matos, 651-216-6029, monica@tenmoonsrising.org

SEPT 16-18 3-DAY WORKSHOP: THE PSYCHOLOGICAL EFFECTS OF BIRTH ON RELATIONSHIPS

Most people agree that relationships can be one of the most aggravating, frustrating, and emotionally painful aspects of life, but also the most rewarding. Most people don't realize that relationship struggles are heavily influenced by one's own birth, simply because birth is the first major physical struggle. Life's ordinary struggles become a manifestation of birth. In this workshop participants uncover their birth scripts to explore the underlying distresses, release traumatic energy, and find new ways of perceiving, feeling, and behaving. Participants with unresolved birth trauma will be led on 'inner journeys' to explore and heal. Breakout groups reflecting various kinds of birth impacts will be organized, because learning the impacts helps to reduce their power. Finally, closure processes are used to integrate discoveries, and enable life changes.

Tuition: 450 Euro (meals & lodging not included)
