MARCH SWITZERLAND (continued)

MAR 17-22 FROM SOURCE TO INCARNATION - THE PRECONCEPTION & CONCEPTION JOURNEY STERNENBERG, SWITZERLAND

The preconception-conception journey is a stage of life as real as adolescence. Research in the last two decades has proven that early trauma in the prenatal period alters the structure and function of the brain, and also alters the biochemistry of stress and trauma, making trauma impacts lifelong until wounds are resolved. Dr. Emerson will guide participants through the stages of preconception and conception, mentor them through healing encounters, and guide them through integrational exercises to bring about desired changes. When early wounds are healed, the ultimate outcome is a deeper connection to spirit, soul and Source, which fosters true transformation and greater ease in life.
