Workshops and Trainings

2012

BY WILLIAM R. EMERSON, PH.D.

Emerson Seminars (ES) provides experiential and didactic workshops and trainings for professionals and non-professionals. ES courses consist of safe, structured, and healing practices, developed by Dr. Emerson over the past thirty years, which provide for personal and spiritual transformation. Participants have the opportunity to identify, explore, and heal wounds emanating from the prenatal and perinatal periods, and in the process, realize and actualize the Higher Self, spirit, and soul. All workshops are taught by Dr. Emerson unless otherwise indicated. You can register for many courses online at www.emersonbirthrx.com.

SHOCK AND TRAUMA, SHAME & GUILT, AND THE RELATIONAL SHOCK CLEARING PROCESS

This foundational course teaches Emerson skills for treating trauma and shock, applicable in most types of psychotherapy and somatic trauma treatment. Participants will learn how to recognize the differences between trauma and shock and how to apply related treatment interventions. Participants will also be regressed to the pre and perinatal periods to directly experience the techniques and to heal their own trauma, shock, shame, and guilt. In addition, group members will learn a valuable therapeutic tool, the Relational Shock Clearing Process (RSCP). For practitioners, the RSCP is an essential tool for resolving trauma and shock, and also reduces, prevents, and heals the impacts of negative transference on practitioners and groups. The course may also involve a few demonstration sessions, where advanced students use Emerson techniques with volunteering participants, and receive group supervision and support.
